A ______ is the study of the way a place uses its money, goods, and services.

a) Buyer  
b) Seller  
c) Economics  
d) Exchange

A ______ is a person who buys goods and services.

a) Buyer  
b) seller  
c) economics  
d) exchange

Which of the following is a service?

a) haircut  
b) apple  
c) a telephone  
d) a ladder

Which of the following is a good?

a) a doctor  
b) a buyer  
c) a seller  
d) a video game

A ______ is a person who sells goods and services to other people.

A) buyer  
b) seller  
c) economics  
d) exchange

What does it mean to exchange?

a) to buy something  
b) to sell something?  
c) to buy services with money  
d) to swap or give up one item for another

____ is the number of people who want or need something.

a) demand  
b) supply  
c) scarcity  
d) trade

____ is the amount of something that is available.

a) trade  
b) scarcity  
c) demand  
d) supply

____ is what happens when an item is hard to find.

a) demand  
b) scarcity  
c) supply  
d) trade

B Name two services

B Name 2 goods

B What does it mean to trade?

A boat

Washington
Lincoln

They grow well in Florida’s climate

Centavos
dollars

It can be divided into smaller amounts
If you land on a red square, return to start. Land on any other color and you can skip on letter. Roll the die and move to the letter shown or move your piece the number of spaces indicated on the die. Answer the question from the corresponding deck of cards. If you answer correctly, you stay there. If not, go back to your previous spot.
Intro to Economics 2nd, 3rd, and 4th grade

Across
2. The number of people who want or need something
4. What are cents/coins in Mexico called
5. Is something that represents something else
6. This is a good Florida grows and supplies to other states and countries
8. What happens when an item is hard to find
11. A person who buys goods and services
12. The study of the way a place uses its money, goods, and services
13. To swap or give up one item for another

Down
1. This is something that helps us identify something
3. What are paper bills in Canada are called
7. The amount of something that is available
9. A system of money
10. A person who sells goods and services to other people

The game board template was originally downloaded as a free resource on TPT from a Ms. Erin Vogel. Her freebie is titled ABCD Game Mat. I made a few changes to the board (deleted the second page, added more directions, and eliminated the D).

I created cards labeled A, B, and C. A questions are multiple choice. B questions are fill-in the blank. C questions require a more detailed answer (or may be more difficult).

The die is also a template. Instead of using a generic die, I wanted to limit the number of spaces the students can move to three. Students will roll either: Number 1-3 or letter A-C. If they land on a number, they move that many spaces. If they land on a letter, they move to that letter.

This activity/game is easy to replicate for any subject. I would suggest playing this before the unit/lesson, during, and also as a review (adding as many key concepts and vocabulary words into the cards as possible).
